Safe, ultra-light  
pixel car seat

Ibebe PIXEL is the lightest construction available on the market. The ultralight composite material used allowed to reduce the weight of the sling to 2.5 kg, at the same time ensuring maximum safety.

The IQ ISOFIX base is a reliable ISOFIX base developed for the Ibebe PIXEL. It uses a patented single socket solution that allows the child seat to be directly connected to the car.

Kite 0-13 kg car seat is designed for rearward-facing transportation of children. The seat ensures optimal positioning of the child's body. Kite is a safe car seat and as a set with a stroller.

Using the ISOFIX base, it is very easy to install the KITE car seat in the car, which increases the everyday comfort of use and safety while traveling.

- Dimensions: 80 cm x 100 cm
- Breathable properties
- Nice to touch
- It does not cause irritation
- Washing temperature max. 30 degrees
- Dry flat
- Tumble dryer can damage the fibers

Winter set by ibebe

Footmuff+ gloves with the addition of fur will work even on very cold days.  
High-quality fleece with a nice to the touch structure.  
Between anti-allergic warmer with a weight of up to 400.  
Perfectly oval shape of footmuffs. It has universal holes for seatbelts so it fits most of the strollers available on the market.  
Hood made of high quality fur provides even more warmth and adds style and elegance.  
Made in 100% in UE from certified fabrics.

A wheelchair with an electronic brake combines safety and comfort. An innovative system has won the main Innovation Award 2019 in the World of Moving Kids' category at the largest fair in Europe Kind UND Jugend in Cologne. The i-stop model is the lightest wheelchair in the world with an electronic braking system. This brake can save the health and life of the child being transported. By choosing a ibebe pram you choose safety.

Multifunctional pram with a unique electronic system braking i-stop Auto-Braking-System. The purpose of this system is to stop the wheelchair from moving even if you forget to apply the brake. Thanks to this innovative the pram will not automatically roll off any slope, thus protecting it child from danger.
